

Fruit Cake - Application Recipe

Mauri Golden Mix

Ingredients:

Group A

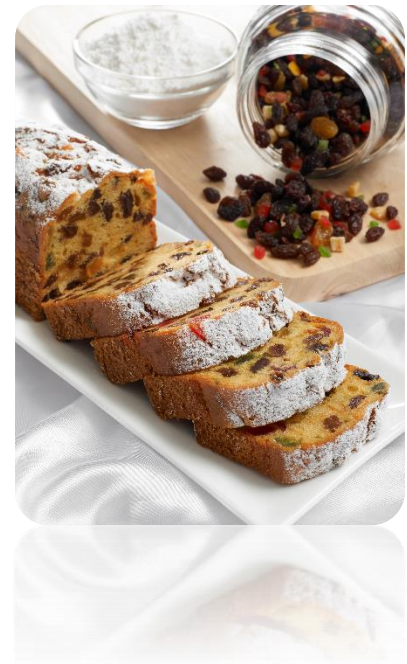

Egg	350
Milk/ Water	300
Corn Oil	300

Group B

Mauri Golden Mix	1000
------------------	------

Group C

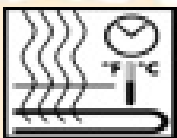

Mixed Fruits	700
--------------	-----

Production method:

- 1) Using paddle, mix group A and group B at slow speed for 1 minute.
- 2) Scrape down the sides and continue mixing at medium speed for 4 minutes.
- 3) Blend in group C until well mixed and pour the batter into baking mould.

- 4) Bake at 170°C for 55 – 60 minutes.
- 5) Remove from oven and let it cool before serving.

**Recipe makes about 5 loaves of fruit cake (500g batter weight). Amount of batter and loaves quantity depends on tin size used.*
